Honda 12th Generation Civic IX Ceramic Honda Brake Pad D2010, 43022-SMG-E01 Rear

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T,LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Honda 12th Generation Civic IX Ceramic Brake Pad
- Model: 12th Generation Civic IX
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-07004
- F/R: R
- FMSI: D2010
- OEM: 43022-SMG-E01
- Braking System: TRW
- Highlight: **43022-SMG-E01 honda brake pad**, **Generation Civic IX honda brake pad**, **43022-SMG-E01**

Product Description

Specifications	
Product name	Honda 8th Accord Ceramic Brake Pad
Model	8th Accord
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-07029
FMSI	D2010
OEM	43022-SMG-E01
Braking System	TRW
Size	
Width	95.7mm
Height	46.5mm
Thickness	14.5mm
Model_MARKE	12th Generation Civic/Honda Civic Hatchback/Two-Door (FD_) 2005/09-

Upgrade Your Ride with Premium Ceramic Brake Pads for Honda Civic IX
Ensure your Honda Civic IX stops as smoothly and quickly as it moves with our top-of-the-line ceramic brake pads. Designed specifically for the 12th generation Civic, these pads offer a perfect fit for models equipped with part number D2010, 43022-SMG-E01, R.
Key Features:
Enhanced Durability: Experience long-lasting performance with our ceramic compound that resists wear and tear.
Reduced Brake Dust: Keep your wheels cleaner with pads that produce less dust compared to traditional materials.
Quiet Operation: Enjoy a quieter ride thanks to the ceramic construction that minimizes noise during braking.
Improved Stopping Power: Feel confident with pads that deliver superior stopping power, even in extreme conditions.
Perfect for daily drivers and enthusiasts alike, these brake pads are an essential upgrade for any Civic IX owner looking for improved braking performance without sacrificing comfort.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.
The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.
Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.
Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.
Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35, coupled with heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.
Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.
Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.
Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.
Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.
Minimizing brake dust, our ceramic brake pads produce less dust compared to metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.
Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
