

## Cadillac SRX Front Ceramic Brake Pads D1019 , 18047994 Front Brake Pad Replacement

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: Production according to customer demand volume

### Product Specification

- Product Name: Cadillac SRX Ceramic Brake Pad
- Model: Cadillac SRX
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-16003
- F/R: F
- FMSI: D1019
- OEM: 18047994
- Braking System: SUM
- Highlight: **18047994 front ceramic brake pads,**  
**18047994 ceramic brake pads,**  
**18047994 ceramic brake pad**

## Product Description

Specifications	
Product name	Cadillac SRX Ceramic Brake Pad
Model	Cadillac SRX
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-16003
FMSI	D1019
OEM	18047994
Braking System	SUM
Size	
Width	181mm
Height	59 mm
Thickness	13.7 mm
Model_MARKE	Cadillac SRX

### Superior Stopping Power with D1019 Ceramic Brake Pads for Cadillac SRX

Elevate your Cadillac SRX's braking performance with our D1019 ceramic brake pads. Designed to meet the exacting standards of your luxury vehicle, these brake pads offer a perfect blend of efficiency and durability. The part number **18047994** ensures a precise fit for a range of Cadillac SRX models, providing you with peace of mind and a seamless installation experience.

Our brake pads are crafted from high-quality ceramic materials that deliver a quieter, cleaner stop with reduced brake dust and noise. They are engineered to withstand diverse driving conditions, offering consistent braking power without the wear and tear on your rotors.

For the discerning Cadillac SRX owner, our D1019 ceramic brake pads are the ideal choice for maintaining the integrity of your vehicle's braking system while ensuring a superior driving experience.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35, coupled with heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
