

Porsche Boxster / Bentley Continental Brembo Brake Pad Ceramic 997.351.939.02

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Porsche Boxster/ Bentley Continental Ceramic Brake Pad
- Model: Porsche Boxster/ Bentley Continental
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-05013
- F/R: F
- FMSI: D1135
- OEM: 997.351.939.02
- Braking System: Brembo
- Highlight: **Porsche BOXSTER Brembo brake pad,
Porsche Boxster Brembo brake pad,
997.351.939.02 Brembo brake pad**

Product Description

Specifications	
Product name	Porsche Boxster/ Bentley Continental Ceramic Brake Pad
Model	Porsche Boxster/ Bentley Continental
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-05013
FMSI	D1135
OEM	997.351.939.02
Braking System	Brembo
Size	
Width	121 mm
Height	86 mm
Thickness	16.1 mm
Model_MARKE	Cayman 2009, 2010, 2011 (pre-facelift)/ Cayman S (pre-facelift)/ Boxster 2009, 2010, 2011 (pre-facelift)/ 911 2007, 2008 (pre-facelift)/ 911 Carrera 997 2005 (pre-facelift)/ 911 Carrera 2010 (post-facelift)/ 911 Targa 2010 (post-facelift)/ 911 2007 (post-facelift)/ Bentley Continental

Premium Ceramic Brake Pads for Porsche Boxster and Bentley Continental (D1135, 997.351.939.02)

Elevate your driving experience with our high-performance ceramic brake pads, designed for the discerning Porsche Boxster and Bentley Continental owners. Our D1135 brake pads, part number 997.351.939.02, offer unparalleled stopping power, ensuring safety and confidence on the road.

Features:

Exceptional Durability: Crafted from advanced ceramic materials for long-lasting wear.

Reduced Brake Dust: Keep your wheels pristine with our low-dust formula.

Optimized Comfort: Experience silent braking with our noise-dampening design.

Precision Fit: Engineered for a perfect fit on both Porsche Boxster and Bentley Continental models.

For the ultimate in braking performance and luxury, choose our ceramic brake pads for your Porsche or Bentley.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35, coupled with heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
