

## Renault Scenic Gen-1,Ceramic Brake Pad,D1145,7701206379,F

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

### Product Specification

- Product Name: Renault Scenic Gen-1 Ceramic Brake Pad
- Model: Renault Scenic Gen-1
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-19005
- F/R: F
- FMSI: D1145
- OEM: 7701206379
- Braking System: LUCAS
- Highlight: **d1145 ceramic brake pad,  
d1145 ceramic brake pads,  
7701206379 ceramic brake pad**

## Product Description

Specifications	
Product name	Renault Scenic Gen-1 Ceramic Brake Pad
Model	Renault Scenic Gen-1
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-19005
FMSI	D1145
OEM	7701206379
Braking System	Lucas
Size	
Width	128.8mm
Height	55.5 mm
Thickness	16.9 mm
Model_MARKE	Renault Scenic MPV (JA0/1) 1.4T-2.0T 1999/09-2003/08

### Renault Scenic Gen-1 Ceramic Brake Pads (D1145, 7701206379)

Enhance your Renault Scenic's braking efficiency with our advanced ceramic brake pads. Designed specifically for the first-generation Scenic, these pads offer a perfect blend of performance and durability. The D1145 model, identified by part number 7701206379, is engineered to provide a precise fit for the front brakes of your vehicle.

#### Key Features:

**Optimal Performance:** Experience improved stopping power with reduced brake fade.

**Low Dust & Noise:** Enjoy a cleaner vehicle and quieter braking.

**Heat Resistant:** Our pads withstand high temperatures, ensuring consistent performance.

**Easy Installation:** Precision-engineered for a straightforward fit, making DIY installation a breeze.

Drive with confidence knowing your Renault Scenic is equipped with the finest ceramic brake pads on the market.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35, coupled with heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
