

IS200 Lexus Brake Pad Replacement 04465-53020 Advics Braking System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Lexus IS200 Ceramic Brake Pad
- Model: Lexus IS200
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-17003
- F/R: F
- FMSI: D1178
- OEM: 04465-53020
- Braking System: Advics
- Highlight: **IS200 lexus brake pad,
IS200 lexus brake pad replacement,
lexus brake pad 04465-53020**

Product Description

Specifications	
Product name	Lexus IS200 Ceramic Brake Pad
Model	Lexus IS200
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-17003
FMSI	D1178
OEM	04465-53020
Braking System	Advics
Size	
Width	154.7 mm
Height	59.7 mm
Thickness	17.5 mm
Model_MARKE	Lexus IS C50 (GSE2_) 2009/04- Lexus IS II (2005/10-)/ New Camry

Lexus IS200 High-Quality Ceramic Brake Pads - D1178, 04465-53020, Front

Enhance your Lexus IS200's braking system with our superior ceramic brake pads. Our D1178 model is expertly designed to fit the front brakes of your Lexus IS200, providing exceptional stopping power and a smooth braking feel. The part number 04465-53020 ensures that these pads are a direct replacement, offering easy installation and a perfect fit.

Constructed from advanced ceramic materials, these brake pads are formulated to reduce noise and brake dust, keeping your wheels clean and maintaining a quiet ride. They offer excellent wear resistance and reduced brake fade, ensuring long-lasting performance and reliability.

For drivers who demand the best for their Lexus IS200, our ceramic brake pads provide the ultimate balance of comfort, performance, and safety. Trust in our brake pads to deliver consistent braking power in all driving conditions, giving you peace of mind every time you're behind the wheel.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35, coupled with heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
