

## Ceramic Hyundai Starex Brake Pads 58101-4DE00 For SUM Braking System

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

### Product Specification

- Product Name: Hyundai Starex Ceramic Brake Pad
- Model: Hyundai Starex
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-28027
- F/R: F
- FMSI: D1566
- OEM: 58101-4DE00
- Braking System: SUM
- Highlight: **SUM hyundai starex brake pads,**  
**SUM starex brake pads, 58101-4DE00**

## Product Description

Specifications	
Product name	Hyundai Starex Brake Pad
Model	Hyundai Starex
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-28027
FMSI	D1566
OEM	58101-4DE00
Braking System	SUM
Size	
Width	164.5 mm
Height	63.4 mm
Thickness	17 mm
Model_MARKE	Hyundai Starex/ Kia Carnival (Third Gen) MPV/ Hyundai H1/ JAC Refine M5/ Haval H9/ JAC Refine M6 (2013 model)

### Optimize Your Hyundai Starex's Performance with High-Quality Ceramic Brake Pads

Elevate your driving experience with our premium ceramic brake pads designed specifically for the Hyundai Starex. Our brake pads, marked with the part number D1566 and OEM code 58101-4DE00, deliver exceptional stopping power, durability, and noise reduction.

#### Key Features:

**Advanced Ceramic Material:** Enjoy quieter stops, reduced brake dust, and a cleaner wheel experience.

**Precision Engineered:** Manufactured to the precise specifications for the Hyundai Starex, ensuring a perfect fit and optimal braking performance.

**Enhanced Durability:** These pads are built to last, offering excellent wear resistance and thermal stability under various driving conditions.

**Easy Installation:** Direct replacement for the factory brake pads, making maintenance straightforward and hassle-free. Whether navigating through city traffic or enjoying a long drive on the highway, our ceramic brake pads provide the safety and performance you trust for your Hyundai Starex.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35, coupled with heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
