

## 2014 Citroën c-Elysee, Ceramic Brake Pad, D1830, R

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

### Product Specification

- Product Name: 2014 Citroën C-Elysee Ceramic Brake Pad
- Model: 2014 Citroën C-Elysee
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-26011
- F/R: R
- FMSI: D1830
- OEM: 68273005A
- Braking System: N
- Highlight: **d1830 ceramic brake pad,  
d1830 ceramic brake pads,  
68273005a ceramic brake pad**

## Product Description

Specifications	
Product name	2014 Citroën c-Elysee Brake Pad
Model	2014 Citroën c-Elysee
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-26011
FMSI	D1830
OEM	68273005A
Braking System	N
Size	
Width	140 mm
Height	40 mm
Thickness	17.2 mm
Model_MARKE	2014 Citroën c-Elysee

### 2014 Citroën C-Elysée Ceramic Brake Pads Model: D1830 Position: Rear

Experience enhanced braking performance with our Ceramic Brake Pads for your 2014 Citroën C-Elysée. These pads are designed to provide superior stopping power, reduced noise, and less brake dust, ensuring a clean and quiet ride.

#### Compatibility:

Perfectly fits the rear axle of the 2014 Citroën C-Elysée.

Engineered to match OEM specifications for a seamless installation.

#### Features:

**Ceramic formula** offers quieter operation and minimal dust production.

Improved braking efficiency for safer driving in various conditions.

Reduced wear on brake discs, prolonging their service life.

Easy to install, with all necessary hardware included.

#### Specifications:

Material: High-quality ceramic compound.

Designed to meet or exceed original equipment standards.

Includes a complete set of pads for the rear axle.

Upgrade to our Ceramic Brake Pads for a noticeable improvement in your Citroën C-Elysée's braking system. Trust in our pads for a reliable, high-performance braking experience.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
