

## Audi A4L Audi Brake Pad Replacement D1876 , 8S0698151 Front Ceramic Pads

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

### Product Specification

- Product Name: Audi A4L Ceramic Brake Pad
- Model: Audi A4L
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-02028
- F/R: F
- FMSI: D1876
- OEM: 8S0698151
- Braking System: N
- Highlight: **8S0698151 front ceramic pads,**  
**8S0698151 audi brake pad,**  
**8S0698151 audi brake pad replacement**

## Product Description

Specifications	
Product name	Audi A4L Brake Pad
Model	Audi A4L
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-02028
FMSI	D1876
OEM	8S0698151
Braking System	N
Size	
Width	210.1 mm
Height	88.9 mm
Thickness	15.1 mm
Model_MARKE	Audi A4L

**Audi A4L Ceramic Brake Pads** Model: D1876 Part Number: 8S0698151

Elevate your driving experience with our Ceramic Brake Pads for the Volkswagen Audi A4L. Engineered for precision and performance, these pads are the perfect upgrade for your vehicle's braking system. The ceramic material offers a significant reduction in brake dust and noise, providing a cleaner and quieter ride.

**Compatibility:**

Tailored for the Volkswagen Audi A4L.

Designed to fit seamlessly with 2016-2020 Audi TT and TTS models with 338mm front rotors.

**Features:**

**Ceramic compound** for reduced noise and dust.

Enhanced stopping power for improved safety.

Gentle on rotors, prolonging their lifespan.

Comes with all the necessary hardware for installation.

**Specifications:**

Material: High-grade ceramic.

Dimensions conform to OEM standards.

The part number corresponds to OE Supplier specifications for Audi TT and TTS models.

Our Ceramic Brake Pads are not just a part; they're a promise of safety, quality, and reliability. Ensure your Volkswagen Audi A4L stops as smoothly as it moves by choosing our premium brake pads.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
