

2014 Chevrolet Sail Gen-3, Ceramic Brake Pad, D1942, 90921493, F

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: 2014 Chevrolet Sail Gen-3 Ceramic Brake Pad
- Model: 2014 Chevrolet Sail Gen-3
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-27020
- F/R: F
- FMSI: D1942
- OEM: 90921493
- Braking System: N
- Highlight: **90921493 ceramic brake pad, 90921493 ceramic brake pads**

Specifications	
Product name	2014 Chevrolet Sail Gen-3 Brake Pad
Model	2014 Chevrolet Sail Gen-3
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-27020
FMSI	D1942
OEM	90921493
Braking System	N
Size	
Width	140.2 mm
Height	55.1 mm
Thickness	16.2 mm
Model_MARKE	2014 Sail 3 1.5L

2014 Chevrolet Sail Gen-3 Ceramic Brake Pads Model: D1942 Part Number: 90921493

Enhance the safety and performance of your 2014 Chevrolet Sail Gen-3 with our top-of-the-line ceramic brake pads. Our pads are engineered to provide you with a superior braking experience, reducing stopping distances and improving pedal feel. The ceramic material ensures quiet operation and minimal dust, keeping your wheels clean and maintaining optimal performance.

Compatibility:

Specifically designed for the 2014 Chevrolet Sail Gen-3.
Direct replacement for the front axle brake system, ensuring a perfect fit.

Features:

Low noise and **low dust** formula for a cleaner and quieter driving experience.
Exceptional stopping power for increased safety in various driving conditions.
Ceramic compound extends the life of the brake pads and rotors.
Easy installation with all necessary hardware included for a hassle-free replacement.

Specifications:

Material: Premium ceramic compound.
Set includes four pads for the front axle.
Each pad measures approximately 140.2mm x 55.1mm x 16.2mm.
Our ceramic brake pads are the ideal choice for Chevrolet Sail Gen-3 owners looking for reliability and performance. Trust our brake pads to keep you safe on the road while delivering a comfortable and confident braking experience.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
