

Nissan Patrol Y61 Ceramic Brake Pads D1958 , 41060-VB290 nissan brake pad

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Nissan Patrol Y61 Ceramic Brake Pad
- Model: Nissan Patrol Y61
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-22019
- F/R: F
- FMSI: D1958
- OEM: 41060-VB290
- Braking System: AKB
- Highlight: **Y61 nissan brake pad,**
Nissan Patrol ceramic brake pads, 41060-VB290

Product Description

Specifications	
Product name	Nissan Patrol Y61 Brake Pad
Model	Nissan Patrol Y61
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-22019
FMSI	D1958
OEM	41060-VB290
Braking System	AKB
Size	
Width	165.7 mm
Height	61.4 mm
Thickness	18.8 mm
Model_MARKE	Nissan Patrol Y61

Nissan Patrol Y61 Ceramic Brake PadsModel: D1958 Part Number: 41060-VB290

Upgrade your Nissan Patrol Y61's braking performance with our premium ceramic brake pads. Designed for durability and superior stopping power, these pads offer a quieter and cleaner driving experience. The ceramic composition reduces brake dust and is gentle on rotors, extending their life and maintaining your vehicle's safety.

Compatibility:

Suitable for Nissan Patrol Y61 models with RD28TI, TB48DE, or ZD30DDTI engines from October 1997 onwards. Perfect fit for front axle disc brakes, ensuring easy installation and optimal function.

Features:

Low-noise operation for a more comfortable ride.
Reduced brake dust keeps wheels cleaner.
Enhanced stopping power for safety in various driving conditions.
Longer lifespan compared to standard pads, offering better value over time.

Specifications:

Material: High-quality ceramic compound.

Dimensions: 167mm x 60.5mm x 18.8mm.

Includes all necessary hardware for a complete replacement.

Ensure your Nissan Patrol Y61 is equipped with the best. Choose our ceramic brake pads for a reliable, high-performance braking solution.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
