

Honda Odyssey Brake Pad D2089 , 45022-THR-A01 Front Ceramic Brake Pads

Basic Information

. Place of Origin: China . Brand Name: OEM ISO9000 · Certification: Model Number: ALL • Minimum Order Quantity: 100 • Price: 5.00-25.00 · Packaging Details: export packing • Delivery Time: 30-60 • Payment Terms: T/T, LC

Product Specification

. Supply Ability:

Product Name: Honda Odyssey Ceramic Brake Pad

15 Million

Model: Honda Odyssey
Type: Brake Pad
Material: Ceramic
Factory No.: ZK-07027
F/R: F
FMSI: D1958

• OEM: 45022-THR-A01

Braking System: N

• Highlight: 45022-THR-A01 Honda Odyssey Brake Pad,

45022-THR-A01 ceramic brake pads, 45022-THR-A01 ceramic brake pad

Product Description

	Specifications
Product name	Honda Odyssey Brake Pad
Model	Honda Odyssey
Туре	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-07027
FMSI	D2089
OEM	45022-THR-A01
Braking System	N
	Size
Width	170.8 mm
Height	58.2 mm
Thickness	16.5 mm
Model_MARKE —	Honda Odyssey

Product Description:

Introducing our **Ceramic Brake Pads** (**D2089**), the perfect upgrade for your **Honda Odyssey**. These front-position brake pads are designed to enhance your vehicle's stopping power, providing safety and performance where it matters most. Crafted from high-grade ceramic material, these pads offer a significant reduction in brake dust and noise, ensuring a clean and quiet ride. The part number **45022-THR-A01** ensures a precise fit for your Odyssey, making installation straightforward and hassle-free.

Key Features:

Superior stopping power for increased safety

Low dust generation to keep your wheels clean

Quiet braking for a more comfortable driving experience

The Exact fit with part number 45022-THR-A01 for the front brakes

Durable construction for long-lasting performance

Whether you're on a daily commute or a family road trip, our Ceramic Brake Pads will provide the confidence and control you need. Upgrade to our Ceramic Brake Pads and experience the difference in your Honda Odyssey's braking capability!

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
