

Volkswagen Passat B5 TRW Ceramic Brake Pad D340 1H0698451E

Basic Information

. Place of Origin: China . Brand Name: OEM ISO9000 · Certification: ALL Model Number: • Minimum Order Quantity: 100 • Price: 5.00-25.00 Packaging Details: export packing • Delivery Time: 30-60

• Payment Terms: T/T, LC . Supply Ability: 15 Million

Product Specification

• Product Name: Volkswagen Passat B5 Ceramic Brake Pad

Model: Volkswagen Passat B5

Brake Pad • Type: Ceramic Material: ZK-01002 • Factory No.: • F/R: • FMSI: D340 1H0698451E • OEM: • Braking System:

• Highlight: Passat B5 ceramic brake pad,

Volkswagen Passat trw ceramic brake pad,

1H0698451E ceramic brake pad

Product Description

	Specifications
Product name	Volkswagen Passat B5 Brake Pad
Model	Volkswagen Passat B5
Туре	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-01002
FMSI	D340
OEM	1H0698451E
Braking System	TRW
	Size
Width	87 mm
Height	53 mm
Thickness	16 mm
Model_MARKE	Passat B5/ Bora/ Bora 1.8T/ Golf/ Previous Generation Peugeot 307/ Scenic II/ Zhonghua/ Zhonghua V5/ Triumph/ BAIC BJ40/ Lavida/ HuangHai Qisheng/ 2017 Lavida/ MG ZS/ New MG 5/ Old Citroën Elysée

Volkswagen Passat B5 Ceramic Brake Pads (D340, 1H0698451E, F) Ensure your Volkswagen Passat B5 stops as smoothly and efficiently as it runs with our top-of-the-line ceramic brake pads. Our D340 model is crafted to meet or exceed OEM standards, guaranteeing a perfect fit and compatibility with your vehicle's specifications. The part number 1H0698451E reflects our dedication to precision and quality.

These ceramic brake pads are designed for longevity and consistent performance, providing superior stopping power with reduced brake dust and noise. Ideal for both daily commutes and spirited driving, they offer a reliable and safe braking experience. With a focus on durability and performance, our brake pads will help maintain the integrity of your Passat B5's braking system.

Experience enhanced braking confidence with our ceramic brake pads, and enjoy a quieter, cleaner, and more responsive drive in your Volkswagen Passat B5.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
