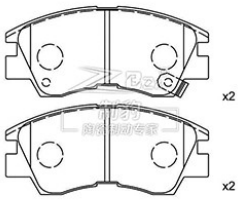
Mitsubishi V32,Ceramic Brake Pad,D349,MB500812,F

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million



Product Specification

- Product Name: Mitsubishi V32 Ceramic Brake Pad
- Model: Mitsubishi V32
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-23007
- F/R: F
- FMSI: D349
- OEM: MB500812
- Braking System: SUM
- Highlight: **mitsubishi ceramic brake pad**, **mitsubishi ceramic brake pads**, **sum ceramic brake pad**

Product Description

Specifications	
Product name	Mitsubishi V32 Brake Pad
Model	Mitsubishi V32
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-23007
FMSI	D349
OEM	MB500812
Braking System	SUM
Size	
Width	127.8 mm
Height	56.5 mm
Thickness	16.3 mm
Model_MARKE	Changfeng Liebao V32/ Soueast Delica/ Pajero V32

Mitsubishi V32 Ceramic Brake Pads (D349, MB500812, F)Enhance the safety and performance of your Mitsubishi V32 with our advanced ceramic brake pads. Our D349 brake pads are meticulously engineered to meet the exacting standards of your vehicle, ensuring a seamless fit and optimal functionality. The part number MB500812 is your assurance of our commitment to quality and compatibility with the Mitsubishi V32 model.

Crafted from premium ceramic materials, these brake pads offer exceptional stopping power, reduced noise, and lower dust production, resulting in a cleaner and quieter driving experience. They are designed to withstand diverse driving conditions, providing reliable braking without compromise.

Whether you're commuting in the city or embarking on a long journey, our ceramic brake pads are the ideal choice for maintaining the integrity of your Mitsubishi V32's braking system. Trust in our brake pads to deliver enhanced control and peace of mind every time you hit the road.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.
The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.
Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.
Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.
Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.
Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.
Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.
Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.
Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.
Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.
Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
