

Mitsubishi Impreza,Ceramic Brake Pad,D461,44060-04U86,R

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Mitsubishi Impreza Ceramic Brake Pad
- Model: Mitsubishi Impreza
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-24001
- F/R: R
- FMSI: D461
- OEM: 44060-04U86
- Braking System: Sumitomo
- Highlight: **mitsubishi ceramic brake pad,
mitsubishi ceramic brake pads**

Product Description

Specifications	
Product name	Mitsubishi Impreza Brake Pad
Model	Mitsubishi Impreza
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-24002
FMSI	D461
OEM	44060-04U86
Braking System	Sumitomo
Size	
Width	73.3 mm
Height	54.6 mm
Thickness	15.8 mm
Model_MARKE	Mitsubishi Impreza

Optimize Your Mitsubishi Impreza's Braking with Our D461 Ceramic Brake Pads

Elevate the braking performance of your Mitsubishi Impreza with our D461 ceramic brake pads, specifically designed to match the OEM part number 44060-04U86 for the rear axle. Our brake pads are crafted using the finest ceramic materials, ensuring superior stopping power, reduced noise, and minimal dust production.

Key Features:

Precision Engineered: Tailored to fit the rear axle of your Mitsubishi Impreza, our brake pads ensure compatibility and performance.

Quiet Operation: Enjoy a noise-free braking experience thanks to the ceramic composition that reduces brake squeal.

Low Dust Formula: Maintain cleaner wheels with our brake pads that produce less dust compared to traditional materials.

Enhanced Durability: Benefit from a longer lifespan and consistent performance under various driving conditions.

Specifications:

Material: Advanced ceramic composite

Position: Rear axle

Compatibility: Designed for Mitsubishi Impreza models requiring part number 44060-04U86

Our ceramic brake pads undergo stringent testing to meet or exceed industry standards, providing you with a reliable and safe braking solution. Whether navigating city streets or cruising on the highway, our brake pads offer the quality and performance you expect for your Mitsubishi Impreza.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
