

Hyundai Elantra,Ceramic Brake Pad,D464,58302-29A00,R

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Hyundai Elantra Ceramic Brake Pad
- Model: Hyundai Elantra
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-28002
- F/R: R
- FMSI: D464
- OEM: 58302-29A00
- Braking System: SUM
- Highlight: **sum ceramic brake pad,**
sum ceramic brake pads

Product Description

Specifications	
Product name	Hyundai Elantra Brake Pad
Model	Hyundai Elantra
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-28002
FMSI	D464
OEM	58302-29A00
Braking System	Sumitomo
Size	
Width	85 mm
Height	46.5 mm
Thickness	14.3 mm
Model_MARKE	New Elantra/ Genesis Coupe/ (Pre-07) Elantra/ Cerato/ Azera/ (D464 with extra bump)

Elevate Your Hyundai Elantra's Safety with Our D464 Ceramic Brake Pads

Introducing our D464 ceramic brake pads, tailored for the Hyundai Elantra and designed to replace the OEM part number 58302-29A00 for the rear axle. These brake pads are crafted from a high-quality ceramic composite that ensures a superior braking experience, offering both durability and performance.

Key Features:

Precision Fit: Specifically designed for the Hyundai Elantra, ensuring a perfect match for the rear axle with part number 58302-29A00.

Quiet Braking: Engineered to reduce braking noise, providing a quieter and more comfortable driving experience.

Low Dust Output: Our ceramic pads produce less dust, keeping your wheels cleaner and maintaining the aesthetic of your vehicle.

Robust Performance: Withstand the rigors of daily driving with brake pads that offer consistent stopping power and long-lasting wear.

Specifications:

Material: Premium ceramic composite

Position: Rear axle

Compatibility: Perfectly fits Hyundai Elantra models requiring part number 58302-29A00

Our D464 ceramic brake pads are the ideal choice for Hyundai Elantra owners looking for reliable and efficient braking solutions. They are rigorously tested to meet the highest standards of quality and safety, ensuring peace of mind on every journey.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
