

34116761252 Bmw X5 Front Brake Pad Replacement BMW X5/740 D681

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: BMW X5/740 Ceramic Brake Pad
- Model: BMW X5/740
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-04001
- F/R: F
- FMSI: D681
- OEM: 34116761252
- Braking System: ATE
- Highlight: **34116761252, 740 bmw x5 front brake pad replacement, 34116761252 bmw x5 front brake pad replacement**

Product Description

Specifications	
Product name	BMW X5/740 Brake Pad
Model	BMW X5/740
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-04001
FMSI	D681
OEM	34116761252
Braking System	ATE
Size	
Width	156.3 mm
Height	73.2 mm
Thickness	18.3 mm
Model_MARKE	Series 5 E39(1995-2004)/Series 7 E38(1994-2001)/X3E83(2004)/X5E53(2000)

Enhance Your Drive with Premium Ceramic Brake Pads for BMW X5/740

Experience the pinnacle of braking performance with our Ceramic Brake Pads, designed specifically for the BMW X5 and 740 models. Our brake pads, featuring the industry-standard D681 design and the OEM part number 34116761252, offer unparalleled durability and noise-free operation, ensuring a smooth and safe driving experience.

Crafted from advanced ceramic compounds, these brake pads provide superior stopping power without the dust and wear associated with traditional materials. The precision-engineered pads are easy to install and are tailored to fit seamlessly with your BMW's braking system, guaranteeing optimal functionality and compatibility.

Whether navigating tight city streets or enjoying the open road, our Ceramic Brake Pads deliver consistent, reliable performance that you can trust. Upgrade to our Ceramic Brake Pads today and feel the difference at every stop.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
