

Kia Carens Gen-2 Rear Ceramic Brake Pads 0K2FC-26-28Z SUM Braking System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Kia Carens Gen-2 Ceramic Brake Pad
- Model: Kia Carens Gen-2
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-21005
- F/R: R
- FMSI: D768(A)
- OEM: 0K2FC-26-28Z
- Braking System: SUM
- Highlight: **0K2FC-26-28Z ceramic brake pads, 0K2FC-26-28Z rear ceramic brake pads, 0K2FC-26-28Z ceramic brake pad**

Specifications	
Product name	Kia Carens Gen-2 Brake Pad
Model	Kia Carens Gen-2
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-21005
FMSI	D775
OEM	0K2FC-26-28Z
Braking System	SUM
Size	
Width	98.6 mm
Height	41.7 mm
Thickness	12.8 mm
Model_MARKE	Kia Carnival 3.5L/ Kia Carens Second Generation (2002-2006)

Kia Carens Gen-2 Ceramic Brake Pads - D775 Series

Ensure your Kia Carens Gen-2 stops as smoothly as it runs with our D775 series ceramic brake pads. These high-performance pads are designed to provide exceptional stopping power, with a composition that minimizes noise and brake dust. Perfect for drivers who demand the best in safety and comfort.

Product Features:

OEM Part Number: 0K2FC-26-28Z, R

Material: Advanced ceramic compound for reduced noise and dust

Compatibility: Specifically engineered for the Kia Carens Gen-2

Dimensions: 99 mm x 41.8 mm x 13.7 mm, ensuring a perfect fit

Durability: Long-lasting material designed to withstand rigorous use

Installation: Easy to install with a precise fit for the Kia Carens Gen-2 braking system

With our D775 ceramic brake pads, you'll experience a quieter, cleaner, and more responsive braking journey in your Kia Carens Gen-2. Drive with confidence knowing that you have the highest quality brake pads designed for your vehicle's safety and performance.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
