

Jeep Grand Cherokee V6 Front Brake Pad Replacement 05011969AA

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Jeep Grand Cherokee V6 Ceramic Brake Pad
- Model: Jeep Grand Cherokee V6
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-14005
- F/R: F
- FMSI: D790
- OEM: 05011969AA
- Braking System: KHY
- Highlight: **05011969AA front brake pad replacement, Jeep Grand Cherokee V6 brake pad replacement , 05011969AA**

Product Description

Specifications	
Product name	Jeep Grand Cherokee V6 Brake Pad
Model	Jeep Grand Cherokee V6
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-14005
FMSI	D790
OEM	05011969AA
Braking System	KHY
Size	
Width	192.3 mm
Height	55.4 mm
Thickness	17.8 mm
Model_MARKE	Grand Cherokee V8 (99-02)/ Beijing Jeep 213 Grand Cherokee 2021G/ Beijing Jeep 4000/ Beijing Jeep 4700/ Grand Cherokee 213

Jeep Grand Cherokee V6 Ceramic Brake Pads - D790 Series

Maximize the safety and performance of your Jeep Grand Cherokee V6 with our top-of-the-line D790 series ceramic brake pads. These pads are engineered to provide the ultimate braking experience, combining durability, low noise, and minimal dust production. They are the perfect match for your vehicle's robust nature.

Product Features:

OEM Part Number: 05011969AA, F

Material: High-grade ceramic compound for optimal braking and minimal wear

Vehicle Fit: Specifically designed for the Jeep Grand Cherokee V6 models

Design: Manufactured with precision to ensure a perfect fit and easy installation

Performance: Exceptional stopping power with reduced brake fade under high temperatures

Comfort: Low-noise operation thanks to advanced friction materials

Whether you're navigating rugged terrain or cruising on the highway, our D790 ceramic brake pads provide the reliability and control you need for your Jeep Grand Cherokee V6.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
