

Toyota Corolla EX Ceramic Brake Pad D817 04465-20540 Akebono Front Brake Pads

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Toyota Corolla EX Ceramic Brake Pad
- Model: Toyota Corolla EX
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-11005
- F/R: F
- FMSI: D817
- OEM: 04465-20540
- Braking System: Akebono
- Highlight: **04465-20540 ceramic brake pad,
Toyota Corolla EX ceramic brake pad,
04465-20540**

Product Description

Specifications	
Product name	Toyota Corolla EX Brake Pad
Model	Toyota Corolla EX
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-11005
FMSI	D817
OEM	04465-20540
Braking System	Akebono
Size	
Width	118 mm
Height	58.6 mm
Thickness	17.2 mm
Model_MARKE	Toyota Corolla (Post-2005)/ Corolla (2006 model)

Maximize Your Toyota Corolla EX's Braking Efficiency with Our Advanced Ceramic Brake Pads

Elevate your driving experience with our **Ceramic Brake Pads (D817, 04465-20540, F)**, tailored specifically for the **Toyota Corolla EX**. These premium brake pads are engineered to provide exceptional stopping power, ensuring safety and reliability for your vehicle.

Our Ceramic Brake Pads are crafted using advanced materials that offer a significant reduction in brake dust and noise, contributing to a cleaner and more peaceful driving environment. The precise engineering guarantees a perfect fit for **Toyota Corolla models ZZE121, ZZE122, and CDE120**, enhancing the overall braking performance.

Key Features:

Reduced Noise: Drive in comfort with brake pads designed to minimize noise.

Decreased Dust: Maintain the cleanliness of your wheels thanks to low-dust technology.

Enhanced Longevity: Enjoy the long-lasting benefits of our durable ceramic material.

Exact Fit: Specifically designed to match your Toyota Corolla EX's specifications for easy installation.

Our Ceramic Brake Pads are the ideal choice for drivers seeking a blend of performance, comfort, and durability. With dimensions of **width: 117.5 mm, height: 58.5 mm, and thickness: 17.4 mm**, they ensure a seamless fit and superior function. Don't compromise on quality. Choose our Ceramic Brake Pads for your Toyota Corolla EX and experience the difference in braking power and performance. Order today and take a step towards a safer and more enjoyable driving experience.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
