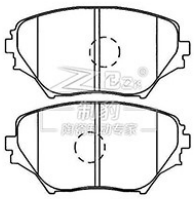
Toyota RAV4 Gen-2 Toyota Brake Pad Set Ceramic Brake Pad D862 , 04465-42080

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million



Product Specification

- Product Name: Toyota RAV4 Gen-2 Ceramic Brake Pad
- Model: Toyota RAV4 Gen-2
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-11007
- F/R: F
- FMSI: D862
- OEM: 04465-42080
- Braking System: Akebono
- Highlight: **RAV4 Gen-2 Toyota Brake Pad Set**, **RAV4 Gen-2 ceramic brake pad**, **04465-42080 Toyota Brake Pad Set**

Product Description

Specifications	
Product name	Toyota RAV4 Gen-2 Brake Pad
Model	Toyota RAV4 Gen-2
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-11007
FMSI	D862
OEM	04465-42080
Braking System	Akebono
Size	
Width	123 mm
Height	60.4 mm
Thickness	17.3 mm
Model_MARKE	Toyota RAV4 (Pre-2005)/ UFO

Toyota RAV4 Gen-2 Ceramic Brake Pads (D862, 04465-42080, F)
Ensure your Toyota RAV4 Gen-2's safety and performance with our top-of-the-line ceramic brake pads. Our model D862 pads are designed to be a perfect match for your RAV4, providing a direct replacement for the OEM part number 04465-42080.
These front-positioned brake pads are engineered for durability and quiet operation, giving you confidence on the road.
The ceramic material offers a significant reduction in brake dust, keeping your wheels clean and maintaining the aesthetic appeal of your vehicle. Moreover, these pads are less abrasive on the rotors, which means less wear and a longer life for your brake system components.
Whether you're commuting in the city or embarking on a long-distance journey, our ceramic brake pads will provide consistent braking power in various driving conditions. Upgrade to our Toyota RAV4 Gen-2 Ceramic Brake Pads for a smoother, more responsive braking experience.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.
The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.
Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.
Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.
Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.
Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.
Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.
Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.
Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.
Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.
Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
