Mitsubishi Outlander ,Ceramic Brake Pad,D866,MN102618,F

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Mitsubishi Outlander Ceramic Brake Pad
- Model: Mitsubishi Outlander
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-23013
- F/R: F
- FMSI: D866
- OEM: MN102618
- Braking System: Akebono
- Highlight: **mitsubishi ceramic brake pad**, **mitsubishi ceramic brake pads**

Product Description

Specifications	
Product name	Mitsubishi Outlander Brake Pad
Model	Mitsubishi Outlander
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-23013
FMSI	D866
OEM	MN102618
Braking System	Akebono
Size	
Width	144.8 mm
Height	55 mm
Thickness	15.8 mm
Model_MARKE	Mitsubishi Outlander (Post-2001)/ New Outlander/ Grandis/ Savrin/ Galant/ Lancer EX/ Outlander EX (Endeavor)/ Lancer EX/ ASX/ Chrysler Sebring/ BAIC X65

Mitsubishi Outlander Ceramic Brake Pads (D866, MN102618, F)
Revitalize your Mitsubishi Outlander's braking system with our premium ceramic brake pads. Our D866 model is meticulously crafted to replace the OEM part number MN102618, ensuring a precise fit for your vehicle. These front-position brake pads are made from superior ceramic material, providing exceptional stopping power and a whisper-quiet braking experience.
The ceramic formula reduces brake dust significantly, keeping your wheels pristine and enhancing the visual appeal of your Outlander. Moreover, these pads are designed to be gentle on the rotors, minimizing wear and prolonging the life of your braking system.
Whether you're navigating urban landscapes or exploring rugged terrains, our ceramic brake pads will deliver consistent and reliable braking performance. Upgrade to our Mitsubishi Outlander Ceramic Brake Pads for a driving experience that's as smooth as it is safe.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.
The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.
Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.
Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.
Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.
Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.
Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.
Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.
Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.
Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.
Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
