

Mitsubishi V73,Ceramic Brake Pad,D868,MN102628,R

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Mitsubishi V73 Ceramic Brake Pad
- Model: Mitsubishi V73
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-23005
- F/R: R
- FMSI: D868
- OEM: MN102628
- Braking System: AKB
- Highlight: **mitsubishi ceramic brake pad,
mitsubishi ceramic brake pads**

Product Description

Specifications	
Product name	Mitsubishi V73 Brake Pad
Model	Mitsubishi V73
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-23005
FMSI	D868
OEM	MN102628
Braking System	AKB
Size	
Width	111.5 mm
Height	45 mm
Thickness	15.3 mm
Model_MARKE	Changfeng Liebao/ Pajero V73/ V77 2.8L/3.0L/3.2L/3.8L/ Grandis/ Dodge Avenger FWD/ BAIC X65

Mitsubishi V73 Ceramic Brake Pads - Model D868 (MN102628)

Upgrade your Mitsubishi V73's braking performance with our premium ceramic brake pads. Designed for durability and superior stopping power, our Model D868 brake pads provide a reliable and noise-free braking experience. The ceramic composition ensures minimal dust and a cleaner wheel surface, maintaining optimal performance and comfort.

Key Features:

Enhanced Durability: Manufactured using advanced ceramic materials for extended lifespan.

Superior Stopping Power: Experience confident and responsive braking under various driving conditions.

Low Noise and Dust: Engineered to reduce brake squeal and dust accumulation for a cleaner, quieter ride.

Direct Fit: Precision-engineered to match the specifications of your Mitsubishi V73 for a hassle-free installation.

Ensure safety and performance on the road with our Ceramic Brake Pads, tailored specifically for your Mitsubishi V73. Trust in our commitment to quality and excellence with every stop.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
