

New Lexus LS430 Ceramic Lexus Brake Pad Set D870 04465-50170

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: New Lexus LS430 Ceramic Brake Pad
- Model: New Lexus LS430
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-17008
- F/R: F
- FMSI: D870
- OEM: 04465-50170
- Braking System: N
- Highlight: **04465-50170 Lexus Brake Pad Set ,
04465-50170 lexus brake pad ,
New Lexus LS430 Lexus Brake Pad Set**

Product Description

Specifications	
Product name	New Lexus LS430 Brake Pad
Model	New Lexus LS430
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-17008
FMSI	D870
OEM	04465-50170
Braking System	N
Size	
Width	118.5 mm
Height	77.7 mm
Thickness	15.9 mm
Model_MARKE	Imported Lexus LS 430 (FE) (2000/10-)

Lexus LS430 Ceramic Brake Pads - Model D870 (04465-50170)

Elevate the braking efficiency of your Lexus LS430 with our state-of-the-art ceramic brake pads. Our Model D870 pads are engineered for longevity and enhanced stopping capability, ensuring a safe and smooth driving experience. Crafted from high-quality ceramic material, these brake pads offer reduced brake dust and noise, keeping your wheels clean and your rides peaceful.

Key Features:

Optimized Performance: Tailored specifically for the Lexus LS430 to provide optimal braking performance.

Long-Lasting: High-grade ceramic materials extend the life of your brake pads and rotors.

Quiet Operation: Engineered to minimize noise for a quieter, more enjoyable driving experience.

Easy Installation: Designed for a perfect fit, ensuring quick and easy installation.

For the Lexus LS430 owner who values performance and quality, our ceramic brake pads are the ideal choice for maintaining the integrity of your vehicle's braking system.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
