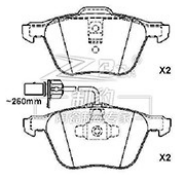
7M3698151A ATE Ceramic Brake Pads Volkswagen Sharan D880 Front Replacement

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million



Product Specification

- Product Name: Volkswagen Sharan Ceramic Brake Pad
- Model: Volkswagen Sharan
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-01022
- F/R: F
- FMSI: D880
- OEM: 7M3698151A
- Braking System: ATE
- Highlight: **7M3698151A ATE Ceramic Brake Pads**, **Volkswagen Sharan ceramic brake pad**, **front brake pad replacement 7M3698151A**

Product Description

Specifications	
Product name	Volkswagen Sharan Brake Pad
Model	Volkswagen Sharan
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-01022
FMSI	D880
OEM	7M3698151A
Braking System	ATE
Size	
Width	161.4 mm
Height	72.9 mm
Thickness	18.7 mm
Model_MARKE	Volkswagen Sharan/ Transporter T4

Volkswagen Sharan Ceramic Brake Pads - Model D880 (7M3698151A)
Enhance your Volkswagen Sharan's braking reliability with our top-of-the-line ceramic brake pads. The Model D880 is specifically designed to match the exacting standards of your vehicle, ensuring a perfect fit and exceptional performance. These pads are crafted from a premium ceramic formula that reduces noise and dust, providing a cleaner, quieter driving experience.
Key Features:
Precision Engineered: Tailored to fit the Volkswagen Sharan for flawless compatibility.
Advanced Braking Technology: Experience improved stopping power with ceramic compounds that offer better heat dissipation.
Reduced Wear and Tear: Enjoy longer-lasting brake components thanks to the low-abrasive nature of ceramic pads.
Environmentally Friendly: Ceramic pads produce less brake dust, contributing to a cleaner environment.
Drive with confidence knowing that your Volkswagen Sharan is equipped with brake pads that deliver safety and performance in every stop.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.
The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.
Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.
Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.
Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.
Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.
Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.
Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.
Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.
Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.
Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
