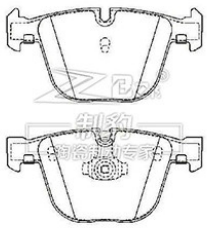
E66 Ceramic Bmw 7 Series Brake Pads D919 34216761286 Rear Brake Pads

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million



Product Specification

- Product Name: BMW 7 Series E66 Ceramic Brake Pad
- Model: BMW 7 Series E66
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-04011
- F/R: R
- FMSI: D868
- OEM: 34216761286
- Braking System: ATE
- Highlight: **34216761286 rear brake pads**, **E66 bmw 7 series brake pads**, **34216761286**

Product Description

Specifications	
Product name	BMW 7 Series E66 Brake Pad
Model	BMW 7 Series E66
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-04011
FMSI	D919
OEM	34216761286
Braking System	ATE
Size	
Width	139.7 mm
Height	67.9 mm
Thickness	15.9 mm
Model_MARKE	BMW 750i/ E38/ E66/ X5/ E53/ 2010 BMW 730 (pre-F02)

Optimize Your BMW 7 Series E66 with D919 Ceramic Brake Pads
Elevate your driving experience with our D919 Ceramic Brake Pads, tailored for the BMW 7 Series E66. Engineered to OEM specifications with part number 34216761286, these rear brake pads deliver unmatched quality and performance.
Key Benefits:
Precision Engineered: Designed to fit the unique braking system of the BMW 7 Series E66, ensuring seamless integration.
Ceramic Composition: Benefit from reduced brake dust and noise, providing a cleaner and quieter ride.
Enhanced Durability: Our ceramic pads are built to last, offering superior wear resistance and longevity.
Improved Braking Performance: Experience consistent, reliable stopping power under various driving conditions.
Rotor-Friendly Material: Protects your discs from excessive wear, extending the life of your braking system.
For the discerning BMW owner, our D919 Ceramic Brake Pads are the perfect blend of performance and sophistication. Drive with confidence, knowing your vehicle is equipped with the finest in braking technology.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.
The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.
Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.
Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.
Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.
Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.
Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.
Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.
Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.
Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.
Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
