

Volkswagen Santana2000 Ceramic Drum Brake Pad 1H0698525X Rear Brake **Shoes Replacement**

Basic Information

. Place of Origin: China . Brand Name: Herito

CCC, IATF 16949 · Certification: Model Number: 1H0698525X

• Minimum Order Quantity: 200

• Price: Negotiable

Plastic film, custom box packaging, securely Packaging Details:

packaged

• Delivery Time: Within 7 days

• Payment Terms: Payment upon delivery

. Supply Ability: Production according to customer demand

Product Specification

• Product Name: Volkswagen Santana2000 Ceramic Brake

Pad

Model: Volkswagen Santana2000

Type: **Brake Shoes** Material: Ceramic ZK-01901 • Factory No.: • F/R: • FMSI: S662 1H0698525X • OEM:

. Braking System: VAG

. Highlight: 1H0698525X Drum Brake Pad,

1H0698525X rear brake shoes replacement, Santana2000 Ceramic Drum Brake Pad

Product Description

Specifications	
Product name	Volkswagen Santana2000 Brake Pad
Model	Volkswagen Santana2000
Туре	Brake Shoes
Material	Ceramic
F/R	R
Factory No.	ZK-01901
FMSI	S662
OEM	1H0698525X
Braking System	VAG
Size	
Width	40 mm
Diameter	200mm
Model_MARKE	Santana 2000/3000/ Zhijun Vista/ '99 Rookie/ Poussin '06 B2/ Polo Jingqing Jingqu (pre-facelift/rear drum)/ Skoda Octavia 1.4L/1.6L/ New Jetta/ Jetta Wagon/ Chery Fengyun/ Chery Qiyun (New/Old model)/ Gol Jetta 1.8/ Kostas Favia

Volkswagen Santana 2000 Ceramic Brake Shoes (S662, 1H0698525X, R)

Upgrade your Volkswagen Santana 2000's braking performance with our premium ceramic brake shoes. Our model S662 brake shoes are designed to provide superior stopping power, reduced brake dust, and quieter operation. Manufactured with high-quality ceramic compounds, they ensure long-lasting durability and consistent performance.

The part number 1H0698525X indicates a genuine Volkswagen part, ensuring perfect compatibility and reliability. These brake shoes are engineered to meet the highest standards of quality and safety, giving you peace of mind on the road.

Whether you're navigating city streets or enjoying a long drive on the highway, our ceramic brake shoes deliver the responsive braking you need. Experience the difference in your Volkswagen Santana 2000 with our top-of-the-line brake shoes.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
