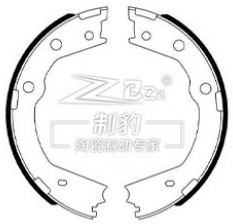
Kia 2009 Borrego,Ceramic Brake Shoes,S970,58350-2JA00,Parking Brake

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million



Product Specification

- Product Name: Kia 2009 Borrego Ceramic Brake Shoes
- Model: Kia 2009 Borrego
- Type: Parking Brake
- Material: Ceramic
- Factory No.: ZK-21906
- F/R: R
- FMSI: S970
- OEM: 58350-2JA00
- Braking System: N
- Highlight: **58350-2ja00 disc brake pad set**, **58350-2ja00 front brake pad set**

Product Description

Specifications	
Product name	Kia 2009 Borrego Ceramic Brake Shoes
Model	Kia 2009 Borrego
Type	Brake Shoes
Material	Ceramic
F/R	F
Factory No.	ZK-21906
FMSI	S970
OEM	58350-2JA00
Braking System	N
Size	
Width	36.1 mm
Diameter	208 mm
Model_MARKE	Kia 2009 Borrego

Kia 2009 Borrego Ceramic Brake Shoes (S970, 58350-2JA00, Parking Brake)
Elevate the parking brake performance of your Kia 2009 Borrego with our exceptional ceramic brake shoes. The S970 model is meticulously engineered using premium ceramic material to ensure robust braking, low noise, and minimal dust production. The specific part number 58350-2JA00 is a testament to its genuine quality and guarantees a precise fit for your vehicle. These brake shoes are not only durable but also designed to provide consistent braking power, enhancing your vehicle's safety. The 'Parking Brake' label indicates their specialized use, making them an essential component for the parking mechanism of your Kia Borrego.
Opt for our ceramic brake shoes to maintain the integrity of your parking brake system and enjoy a reliable, maintenance-free experience.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.
The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.
Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.
Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.
Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.
Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.
Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.
Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.
Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.
Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.
Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
