

Ceramic bmw oem brake pads D21102 34116721102 , OE Quality F Series Compatible

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T,LC
- Supply Ability: 15 Million

Product Specification

- Product Name: BMW OE F Ceramic Brake Pad
- Model: OE Quality
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-21102
- F/R: F
- OEM: 34116721102
- Braking System: ATE
- Highlight: **34116721102 bmw oem brake pads, Ceramic bmw oem brake pads, 34116721102**

Product Description

Specifications	
Product name	BMW Ceramic OE Brake Pad
Model	OE
Type	Brake Pad
Material	Ceramic
F/R	F
Factory No.	ZK-21101
FMSI	D21101
OEM	34116721101
Braking System	N
Size	
Width	156.3 mm
Height	73.2 mm
Thickness	18.3 mm
Model_MARKE	BMW

Experience Unmatched Braking Performance with BMW OEM Ceramic Brake Pads Elevate your driving experience with our BMW OEM Ceramic Brake Pads, model D21102. Designed to meet the exacting standards of Original Equipment (OE) quality, these brake pads offer superior stopping power for your BMW F Series vehicle. Manufactured with advanced ceramic compounds, they provide a quieter, cleaner, and more consistent braking performance. Our brake pads are engineered for longevity and durability, ensuring that they withstand the rigors of daily driving while minimizing wear on your brake rotors. The precise fitment of part number 34116721102 guarantees a seamless installation process, restoring your vehicle's braking system to its peak condition. Choose BMW OEM Ceramic Brake Pads for a reliable, high-performance braking solution that keeps you safe on the road while enhancing your vehicle's value and driving pleasure.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.

FAQ:

What is the product name?

BMW Brake Pad Set

What type of BMW cars is this brake pad set compatible with?

This brake pad set is compatible with all models of BMW cars.

What is included in the package?

The package contains two front brake pads and two rear brake pads.

Are these brake pads made of ceramic or metallic material?

These brake pads are made of ceramic material.

What is the warranty period for this product?

The warranty period for this product is one year from the date of purchase.
