Product Description:

Weighing in at 5 pounds, this brake pad set includes pads for both the front and rear of your vehicle, making it easy to replace all your brake pads at once. The pads are designed for placement on both the left and right sides of your vehicle, as well as both the front and rear positions.

When it comes to safety on the road, you want the best disc brake pads available. That's why the Mercedes-Benz Brake Pad Set is such a great choice. These brake pads are specifically designed for use with Mercedes-Benz vehicles, ensuring a perfect fit and optimal performance. Plus, because they are made in Germany, you can trust that they are built to the highest standards of quality.

Don't take chances with your vehicle's braking system. Choose the best brake pads for your Mercedes-Benz with the Mercedes-Benz Brake Pad Set. These pads are designed to provide superior stopping power, even in the most demanding driving conditions. So whether you're cruising down the highway or navigating a tricky mountain pass, you can trust that your brakes will perform flawlessly.

Applications:

With a direct replacement fitment type, the Herito brake pad set is suitable for both left and right placement on your vehicle, whether it's the front or rear. The material used in these brake pads is ceramic, which is known for its durability and heat resistance. Ceramic brake pads offer the best performance compared to other materials and are much quieter.

If you are looking for the best ceramic brake pads in the market, the Herito brake pad set is the perfect choice. These brake pads are manufactured to OE specifications and are made to offer the same fit and performance as the original equipment. The interchange part number for these brake pads is 0044200820, and the manufacturer part number is also 0044200820.

The Herito brake pad set is suitable for various occasions and scenarios. If you notice your vehicle's braking performance has decreased, it could be time for brake pads replacement. These brake pads are perfect for drivers who want to upgrade their braking system to offer better performance and reliability. If you are driving in high-temperature environments, such as mountainous areas, or if you like to drive fast, these brake pads will offer you a better stopping power.

Additionally, if you are looking for a long-lasting set of brake pads that will not wear out quickly, the Herito brake pad set is the perfect solution. These brake pads are designed to last longer than traditional brake pads, providing a more cost-effective option in the long run.

Overall, the Herito brake pad set is a high-quality replacement for your Mercedes-Benz brake pads. With its reliable performance, durable ceramic material, and direct fitment type, you can trust these brake pads to keep you safe on the road.
