Product Description

Product Description:

This brake pad set includes four pieces, providing enough for both the front and rear positions of your Volkswagen. The thickness of each brake pad is 10mm, ensuring reliable stopping power and consistent performance. With these brake pads installed, you can feel confident in your Volkswagen's ability to stop quickly and safely.

One of the key features of this Volkswagen Brake Pad Set is the inclusion of hardware. This means that the necessary components for installation are included, saving you time and money on additional purchases. The hardware included ensures that the brake pads are securely installed and functioning properly, providing additional peace of mind knowing that your brakes are operating as intended.

While this Volkswagen Brake Pad Set is not slotted, it is still a high-performing brake pad set that will meet the needs of most drivers. If you are looking for a reliable and efficient brake pad set for your Volkswagen, this is an excellent choice.
