Product Description

Product Description:

One of the key features of this Volkswagen Brake Pad Set is its chamfered edges. This design helps to reduce noise and vibration during braking, ensuring a smooth and comfortable ride. The chamfered edges also help to prevent damage to the rotor, extending the life of both the brake pad and the rotor.

Another important attribute of this VW Replacement Brake Pad Set is its thickness. At 10mm, these brake pads provide excellent stopping power and durability. They are able to withstand high temperatures and heavy use, making them a reliable choice for all types of driving conditions.

Included with this Volkswagen Brake Pad Set are all the necessary hardware components for easy and hassle-free installation. This means you can quickly and easily replace your old, worn-out brake pads with these high-quality OEM Replacement brake pads, without having to worry about finding and purchasing additional hardware.

The Factory No for this Volkswagen Brake Pad Set is ZK-01014, ensuring that you are getting the exact product you need for your Volkswagen vehicle. With its excellent performance, durability, and easy installation, this VW Replacement Brake Pad Set is a top choice for anyone in need of reliable and high-quality brake pads.

Features:

Product Name: Volkswagen Brake Pad Set

Hardware Included: Yes

Slotted: No
