Rear volkswagen brake pad set,
Santana 2000 volkswagen brake pad**

Product Description

Product Description:

Designed as an OEM replacement, this brake pad set is guaranteed to fit perfectly on your Volkswagen Santana2000. It is also a cost-effective alternative to the Volkswagen Genuine Brake Pad Set, without compromising on quality and performance. With front and rear positions included in this package, you can rest assured knowing that all your brake pads are covered. The VW Ceramic Brake Pad Kit is designed to give you the best possible braking experience, with optimal stopping power and minimal noise. Although this brake pad set does not come with slotted pads, the flat surface ensures even wear and tear, prolonging the life of your brake pads. This Volkswagen Aftermarket Brake Pad Set comes with Factory No: ZK-01014, so you can be confident that it meets all the necessary industry standards.

Model	Volkswagen Santana2000
Position	Front And Rear
Chamfered	Yes
Thickness	10mm
Wear Sensor Included	Yes
Hardware Included	Yes
Factory No	ZK-01014
Slotted	No

Applications:

The Volkswagen Brake Pad Set is a genuine product that meets the highest standards of performance and safety. The FMSI code for this set is D978, which indicates that it is a disc brake pad set with wear sensor included. This sensor is a crucial component that alerts the driver when their brake pads are getting worn out and need to be replaced.

This brake pad set is perfect for a variety of driving scenarios and occasions. For example, if you are a Volkswagen Santana2000 owner who frequently drives in stop-and-go traffic, these brake pads will provide reliable stopping power and reduce the wear and tear on your vehicle's brake system. They are also ideal for long-distance driving, as they are designed to last for thousands of miles before needing to be replaced.

Furthermore, if you are a car enthusiast who enjoys taking their Volkswagen Santana2000 to the track, the Volkswagen Brake Pad Set will give you the confidence you need to push your car to its limits. These brake pads are known for their exceptional performance under high-speed and high-temperature conditions. They are also built to withstand heavy braking and reduce brake fade, ensuring that you can stop quickly and safely whenever you need to.

In summary, the Volkswagen Brake Pad Set from Herito is a high-quality product that is perfect for Volkswagen Santana2000 owners who want to ensure their vehicle is operating at its best. With its genuine design, wear sensor included, and exceptional performance, this brake pad set is ideal for a variety of occasions and scenarios, including daily driving, long-distance trips, and even track days. So, if you are looking for a reliable and durable brake pad set for your Volkswagen Santana2000, the Volkswagen Brake Pad Set from Herito is an excellent choice.

Customization:

Packing and Shipping:

Product: Volkswagen Brake Pad Set
Description: High-quality brake pads designed specifically for Volkswagen models.
Packaging: The brake pad set comes in a sturdy cardboard box with Volkswagen branding. Inside the box, the brake pads are securely packaged in a foam insert to prevent any damage during shipping.
Shipping: The brake pad set will be shipped via standard ground shipping and will arrive within 5-7 business days. Expedited shipping options are also available for an additional fee.
