OE Number 04465-35290 Brake Pad Set**

## Product Description

### Product Description:

Designed for use on a wide range of Toyota models, these brake pads are the ideal choice for drivers who demand the very best in performance and reliability. With a factory number of ZK-11013 and an interchange part number of 04465-35290, D1210, ACT1210, these brake pads are guaranteed to be a perfect fit for your vehicle.

One of the key features of these brake pads is their ceramic construction. Ceramic brake pads offer a number of advantages over traditional metallic pads, including improved stopping power, reduced noise and vibration, and longer lifespan. This means that you can enjoy greater peace of mind knowing that your brakes are working at their best, no matter what conditions you're driving in.

Another advantage of these brake pads is that they come in a complete set for both the front and rear wheels. This means that you won't have to worry about buying separate pads for each wheel, or trying to mix and match pads from different manufacturers. Instead, you can simply install these pads and enjoy the benefits of good brake pads that are designed to work perfectly together.

So if you're looking for top-quality brake pads Toyota drivers can rely on, be sure to check out our Toyota Brake Pad Set today. With their ceramic construction, excellent fit, and complete set of front and rear pads, these brake pads are the perfect choice for anyone who wants to keep their Toyota running safely and smoothly for years to come.

### Applications:

The Herito Brake Pad Set comes with four pieces, making it ideal for both the front and rear brake pads. The OE number 04465-35290 ensures that this brake pad set is compatible with your Toyota vehicle. Made from ceramic material, this brake pad set is designed to withstand high temperatures and provide excellent stopping power. Weighing only 2.5 pounds, this brake pad set is lightweight and easy to handle.

The Herito Brake Pad Set is suitable for a wide range of occasions and scenarios. If you are looking to replace your old and worn-out brake pads, this product is an excellent choice. The ceramic material used in this brake pad set provides superior performance and durability, ensuring that your brake pads last longer and perform better. The lightweight design of this brake pad set also makes it easy to install and use, making it a great choice for DIY enthusiasts.

The rear brake pad is an essential component of your vehicle's braking system. It is responsible for slowing down and stopping the rear wheels of your vehicle. If you notice any signs of wear and tear on your rear brake pad, it's time to replace it. The Herito Brake Pad Set is an excellent choice for replacing your rear brake pad. Its ceramic material provides superior performance and durability, ensuring that your vehicle stops quickly and safely.

In conclusion, the Herito Brake Pad Set is an excellent choice for your Toyota vehicle's braking system. Its ceramic material, lightweight design, and compatibility with specific Toyota models make it a top-quality product. Whether you are looking to replace your old brake pads or upgrade to a higher-performing brake pad set, this product is an excellent choice. So, order your Herito Brake Pad Set today and enjoy a safer and more reliable driving experience!
