Applications:

These brake pads are designed to meet or exceed OE standards, with an OE number of 04465-35290. This ensures that they are a reliable and safe option for your Toyota vehicle. The ceramic material used in these brake pads provides a number of benefits over other materials. They produce less dust, which means that your wheels stay cleaner for longer. They also have a longer lifespan, meaning that they need to be replaced less frequently. Additionally, ceramic brake pads provide better performance in extreme temperatures, making them a great choice for those who live in areas with harsh weather conditions.

The Herito Ceramic Brake Pad Set is perfect for a variety of application occasions and scenarios. If you are in need of brake pads for Toyota vehicles, these brake pads are a great choice. They are suitable for use in both regular and heavy-duty driving conditions, making them a versatile option. Whether you are commuting to work or driving off-road, these brake pads will provide the stopping power and durability that you need. They are also a great choice for those who are looking for a reliable and safe option for their Toyota vehicle.

Customization:

Packing and Shipping:

Product Packaging:

The Toyota Brake Pad Set comes in a durable and secure package to ensure the safety of the product during shipping and handling. The

package includes four brake pads, two for the front and two for the rear, and comes with installation instructions for easy installation.

Shipping:
