Nissan Racing Brake Pad Set

OEM

Technical Parameters:

Interchange Part Number	D10609N00A
Oe Number	D10609N00A
Braking System	Akebono
Position	Front
Fmsi	D815
Manufacturer Part Number	D1060-9N00A
OEM	41060-7Z025
Package Quantity	1
Item Weight	3.2 Pounds
Model	Nissan Teana

Applications:

The Nissan OEM Brake Pad Set is equipped with Akebono braking system, a technology that provides superior stopping power and durability. This makes it an excellent choice for drivers who require reliable brake pads for their daily commute, long-distance travels, or extreme driving conditions.

The product dimensions of the Nissan OEM Brake Pad Set are 8.6 x 5.4 x 3.4 inches, making it a perfect fit for Nissan models that require this size of brake pads. The manufacturer part number is D1060-9N00A, and the OE number is the same, D10609N00A, ensuring compatibility with the vehicle's original parts.

In addition to the Nissan OEM Brake Pad Set, ZKZB also offers the Nissan Aftermarket Brake Pad Set, which is a cost-effective alternative for customers who want to save money without sacrificing quality. The aftermarket brake pads are made with the same materials and manufacturing processes as the OEM brake pads, ensuring similar performance and reliability.

For customers who want to customize their braking system, ZKZB offers ceramic brake pad customization. Ceramic brake pads are known for their superior performance, durability, and noise reduction compared to traditional brake pads. ZKZB's ceramic brake pads are designed to fit Nissan models, ensuring a perfect fit and optimal braking performance.

Customization:

With a one-year warranty, you can trust that your Nissan will be equipped with high-quality brake pads that will last. Upgrade your Nissan's braking power with the ZKZB Brake Pad Set, the perfect choice for Nissan Racing Brake Pad Set, Nissan OEM Brake Pad Set, and Nissan Performance Brake Pad Set.
