Product Description

Product Description:

At only 3.2 pounds, this brake pad set is lightweight and easy to install. The product dimensions of 8.6 x 5.4 x 3.4 inches make it a perfect fit for the front position of your Nissan vehicle.

This brake pad set is an OEM replacement part, which means it is made to the same specifications as the original part that came with your Nissan Teana. You can trust that this brake pad set is made with the highest quality materials and will perform just as well as the original.

As one of the leading brake pad manufacturers, this Nissan Aftermarket Brake Pad Set is a top choice for Nissan owners who want to ensure their vehicle is running at its best. It is compatible with a wide range of Nissan vehicles, making it a versatile and reliable choice for any Nissan owner.

Don't settle for anything less than the best when it comes to your Nissan's braking system. Choose the Nissan Aftermarket Brake Pad Set for exceptional performance, quality, and reliability.

Type: Brake Pad

OE Number: D10609N00A

Brake pad manufacturers: Akebono

Nissan High Friction Brake Pad Set

Technical Parameters:

OEM	41060-7Z025
Package Quantity	1
Manufacturer Part Number	D1060-9N00A
OE Number	D10609N00A
FMSI	D815
Interchange Part Number	D10609N00A
Warranty	1 Year
Model	Nissan Teana
Braking System	Akebono
Position	Front

Applications:

The Nissan Brake Pad Set is designed for the front position of the vehicle, and it is compatible with the Akebono braking system. This product is a perfect fit for Nissan cars, trucks, and SUVs that require a replacement brake pad.

The Nissan Automotive Brake Pad Set is an essential product for maintaining the safety and performance of your vehicle. The ceramic brake pad OEM material used in this product ensures that it has a longer lifespan than other types of brake pads. It is also designed to provide a smoother and quieter braking experience.

The Nissan 4x4 Brake Pad Set is perfect for those who own a Nissan 4x4 vehicle. This product is designed to handle the harsh off-road conditions that 4x4 vehicles often encounter. The ceramic material used in this product provides better heat dissipation, which reduces the risk of brake fade.

The Nissan Brake Pad Set is suitable for multiple application occasions and scenarios. Whether you are driving in the city, on the highway, or off-road, this product can provide reliable and efficient braking performance.
