This Porsche Brake Pad Set comes with carbon ceramic brake pads and is a great alternative to brake ceramic pads or Brembo ceramic brake pads.

Applications:

These brake pads are the perfect replacement for your old, worn-out pads. With a thickness of 14mm and a height of 72mm, they are designed to fit perfectly in the front position of your Porsche.

Not only are these brake pads easy to install, but they also come with shims included for added convenience. The ceramic material ensures that they are durable and long-lasting, making them the best brake pads for cars.

Whether you're driving on the highway or around town, you can trust these new brake pads to provide reliable stopping power. They are designed to be quiet and smooth, ensuring a comfortable ride for you and your passengers.

The Herito Brake Pad Set is perfect for a variety of occasions and scenarios. Whether you're a professional mechanic working on a customer's Porsche, or you're a Porsche owner looking for a high-quality replacement for your worn-out brake pads, these pads are an excellent choice.

So why wait? Upgrade your Porsche brakes with the Herito Brake Pad Set today and experience the difference for yourself!

Customization:

Customize your Porsche brake pad set with our Product Customization Services from Herito. The model number for this set is 201562 and it is made in China. The package includes shims, hardware, and a wear sensor to ensure optimal performance. These brake pads are specifically designed for the front position and are compatible with Porsche 911, Boxster, and Cayman models. Upgrade your braking system with these ceramic brake pads to enhance your Porsche carbon ceramic brakes.

Support and Services:

Our Porsche Brake Pad Set is designed to provide optimal performance and safety for your vehicle. Our technical support team is available to answer any questions you may have about installation, maintenance, or troubleshooting. In addition, we offer a range of
