Porsche Ceramic Brake Pad Set**

## Product Description

### Product Description:

These brake pads are made from high-quality ceramic materials that are designed to withstand extreme temperatures and perform consistently under high-stress conditions. The ceramic compound used in these brake pads provides excellent stopping power and minimizes brake dust, making them an excellent choice for daily driving and track use.

Included with these brake pads is all necessary hardware for installation, making the process quick and easy. The wear sensor is also included, ensuring that you'll always know when it's time to replace your brake pads.

Don't settle for subpar braking performance on your Porsche. Upgrade to these Porsche brake pads and experience the difference in stopping power and durability. These brake pads are compatible with Porsche ceramic brakes and are the perfect choice for any Porsche owner looking to enhance their vehicle's performance.

### Features:

Product Name: Porsche Brake Pad Set

Material: Ceramic

Installation Method: Clip-in

Compatibility: Porsche 911, Boxster, Cayman

Shims: Included

Thickness: 14mm

Features: best performance brake pads, front brake pad, brake ceramic pads

### Technical Parameters:

Installation Method:	Clip-in
Quantity:	4 Pads
Shims:	Included
Wear Sensor:	Included
Height:	72mm
Width:	155mm
Compatibility:	Porsche 911, Boxster, Cayman
Hardware:	Included
Material:	Ceramic
Thickness:	14mm

### Applications:

The installation method for this brake pad set is clip-in, which makes the installation process quick and easy. The brake pad set is suitable for the front position of your vehicle. The package also includes shims, which are used to reduce noise and vibrations during braking. The height of the brake pad set is 72mm, and it weighs 2.5 Lbs.

The Herito 201562 brake pad set is ideal for various occasions and scenarios. Whether you are driving on the highway, in the city, or on a rugged terrain, these brake pads will provide you with consistent and reliable stopping power. They are suitable for daily driving, as well as for high-speed driving and performance driving.

If you are looking for brake pads that offer excellent performance and durability, the Herito 201562 brake pad set is the right choice. These ceramic brake pads are designed to withstand high temperatures and provide consistent friction, which ensures reliable and efficient braking.

### Support and Services:

Our Porsche Brake Pad Set is designed for high-performance driving. It features a ceramic composite material that provides excellent stopping power and low brake dust. Our brake pads are rigorously tested to ensure they meet or exceed OEM specifications for fit, form, and function. We also offer technical support and services to help you with any questions or issues you may have with our product. Our team of experts is available to assist you with installation, maintenance, and troubleshooting to ensure your Porsche Brake Pad Set performs optimally.
