## Product Description

### Product Description:

These brake pads are not compatible with Audi S4 or S5 models. Please ensure that your vehicle is compatible before purchasing. The Audi Brake Pad Set weighs 2.5 pounds, making it a lightweight option that won't add unnecessary weight to your vehicle. This means that you won't have to sacrifice performance for durability, as these brake pads are designed to provide both. The Audi Brake Pad Set comes with a 1-year warranty, giving you peace of mind and ensuring that you are getting a high-quality product that will last. This warranty covers any defects or issues with the product, so you can be confident in your purchase. The Audi Brake Pad Set includes 4 pads, providing you with a complete set for your vehicle. These pads are a great replacement option for those looking for brake pads for Mercedes Benz, brake pads OEM, or brake pads replacement. They are designed to be a direct replacement for your original brake pads, making installation quick and easy.

### Applications:

As one of the best brake pad brands on the market, Herito is committed to producing high-quality, OEM brake pads that will meet or exceed your expectations. These brake pads are designed to provide excellent stopping power, even in the most challenging of driving conditions. One of the key features of this brake pad set is the included wear sensor, which will alert you when it's time to replace the pads. This can help you avoid costly damage to your brake system and ensure that your vehicle is always operating at peak performance. In addition to their reliability and durability, these brake pads are also some of the best ceramic brake pads available. Ceramic brake pads are known for their superior performance and longer lifespan compared to other types of brake pads. They also produce less dust and noise, which can help keep your wheels and brakes cleaner over time. The installation method for these brake pads is clip-in, which means they are easy to install and replace. This makes them a great choice for DIY mechanics or anyone who wants to save time and money on brake pad replacement. Overall, the Herito Brake Pad Set is a great choice for anyone who wants reliable, high-quality brake pads for their Audi A4, A5, or Q5. With their OEM design, wear sensor, and ceramic construction, these brake pads are sure to provide superior stopping power and long-lasting performance.

### Support and Services:

The Audi Brake Pad Set product comes with technical support and services to ensure proper installation and performance. Our team of experts can provide assistance with any questions or concerns related to the product, such as compatibility, installation instructions, and maintenance recommendations. Additionally, we offer a limited warranty on the product to provide added peace of mind for our customers.
