These front brake pads are made of carbon ceramic material, and come with shims and a wear sensor included. They are the best brake pad available for Porsche 911, Boxster, and Cayman models, with a thickness of 14mm and a width of 155mm. The pads weigh 2.5 lbs and come with a 1 year warranty.

Applications:

These brake pads are specifically engineered for use on the front brakes of your Porsche, ensuring reliable stopping power when you need it most. With a height of 72mm, these pads are built to withstand the demands of high-performance driving and provide consistent performance over time.

Whether you're a weekend track warrior or simply want to upgrade your daily driver, the Herito Brake Pad Set is a great choice for Porsche owners. These front brake pads are compatible with a range of models and offer superior stopping power and durability, so you can enjoy a safer and more responsive driving experience.

So if you're in the market for new Porsche brakes, consider the Herito Brake Pad Set. With easy installation, reliable performance, and the peace of mind that comes with a trusted brand, these brake pads are an excellent choice for any Porsche enthusiast.

Customization:

Our brake pads are the best brake pads for cars, with wear sensors and hardware included for easy installation. The installation method is clip-in, making it quick and simple to upgrade your Porsche brakes.

Support and Services:

The Porsche Brake Pad Set is designed to offer high performance and reliability for your Porsche vehicle. Our brake pads are engineered to provide optimal stopping power and minimize brake dust, noise, and wear.

To ensure the best performance and longevity of your brake pads, we recommend following the vehicle manufacturer's recommended maintenance schedule and replacing your brake pads as needed. Our technical support team is available to answer any questions you may have regarding the installation or maintenance of your Porsche Brake Pad Set.

In addition to our technical support, we also offer a range of services to help you get the most out of your Porsche Brake Pad Set. These services include:

Installation services by trained and certified technicians

Brake system inspection and diagnosis

Brake system upgrades and customization

Brake fluid replacement and flush

Metallic brake pad compatibility and selection advice
