honda brake pad set Ceramic**

Product Description

Product Description:

One of the most important features of this Honda Brake Pad Set is its OE number, which is 45022-TA0-A00. This means that it is an original equipment (OE) part that is made to the same specifications as the brake pads that came with your Honda vehicle. This ensures that you are getting a high-quality product that will perform just as well as the original brake pads.

Another key feature of this brake pad set is the included wear sensor. This sensor is designed to alert you when the brake pads are wearing down and need to be replaced. This is an important safety feature that helps to ensure that your brakes are always in good working condition.

The thickness of these front brake pads is 0.5 inches. This is an important measurement to consider when selecting brake pads for your vehicle, as it directly affects the performance of your brakes. With a thickness of 0.5 inches, these front brake pads are designed to provide optimal stopping power, while also being durable and long-lasting.

In summary, the Honda Brake Pad Set is a high-quality product that is specifically designed to fit the front brake pads of your Honda vehicle. With a weight of 2 pounds, an OE number of 45022-TA0-A00, an included wear sensor, and a thickness of 0.5 inches, these front brake pads are a reliable and safe choice for your vehicle. Don't wait until your brakes start to fail - upgrade to the Honda Brake Pad Set today!

Applications:

In addition to their high-quality materials, Herito brake pads also come equipped with a wear sensor to help you keep track of when it's time to replace them. This added feature ensures that your Honda brake pads will always be in top condition, helping to prevent costly accidents and repairs down the line.

Whether you're driving in the city or on the highway, Herito brake pads are the ideal choice for any situation. Their ceramic construction helps to reduce noise and dust, making them an excellent choice for those who value a clean and quiet ride. With a weight of only 2 pounds, these front brake pads won't add unnecessary bulk or drag to your vehicle, ensuring that you always get the best possible performance.

Herito brake pads are perfect for a variety of different driving scenarios, including everyday commuting, long-distance travel, and high-performance driving. Whether you're driving on a track or on the open road, these Honda brake pads will provide the reliable stopping power you need to stay safe and in control.

So if you're looking for a reliable and high-quality set of front brake pads for your Honda vehicle, look no further than Herito brake pads. With their ceramic construction, wear sensor, and reliable stopping power, these brake pads are the perfect choice for any driver.
