## Product Description:

These brake pads are OE replacement pads, which means that they are designed to fit perfectly into your Lexus vehicle without any modifications. They are compatible with various Lexus models, ensuring that you get the right fit for your vehicle. The brake pads are designed to meet or exceed OEM specifications, ensuring that you get the same performance and quality as your original brake pads. The Lexus Brake Pad Set has a thickness of 0.5 inches, providing enough material to ensure that the pads last longer and provide better braking performance compared to other brake pads in the market. The thickness also provides better heat dissipation, preventing brake fade even during intense braking. The pads are also designed to minimize noise and vibration, ensuring a comfortable and quiet ride. Included in the brake pad set are shims that help reduce noise and vibration. The shims also increase the lifespan of the pads by preventing premature wear and tear. With these shims, you can be assured of a smooth and quiet ride every time you apply the brakes. The Lexus Brake Pad Set has a weight of 5 pounds, making it lightweight and easy to install. The installation process is straightforward, and you do not need any special tools or skills to install them. You can easily install them yourself or have them installed by a professional mechanic.

These brake pads are the best brake pads brand to consider when upgrading your Lexus braking system. They are OE replacement pads, compatible with various Lexus models, have a thickness of 0.5 inches for better performance and durability, come with shims to reduce noise and vibration, and are lightweight and easy to install. Get yourself the Lexus Brake Pad Set today and enjoy better braking performance and durability in your Lexus vehicle.

Friction Coefficient	0.35
Weight	5 Pounds
Oe Replacement	Yes
Package Contents	4 Brake Pads
Dimensions	8 X 8 X 2 Inches
Warranty	Limited Lifetime
Position	Front And Rear
Thickness	0.5 Inches
Material	Ceramic
Hardware Included	Yes

## Applications:

The Herito brake pad set comes with installation instructions that make it easy to install. You do not need to be an expert to install these brake pads. The instructions are easy to follow and will guide you through the installation process. The brake pads have a friction coefficient of 0.35 which ensures superior stopping power. The friction coefficient is a measure of the brake pads' ability to stop the vehicle. The higher the friction coefficient, the better the stopping power.

The Herito brake pad set has a thickness of 0.5 inches which is perfect for your Lexus. The brake pads' dimensions are 8 x 8 x 2 inches which means they are a perfect fit for your vehicle. You do not need to worry about the brake pads not fitting your vehicle. The Herito brake pad set is designed to fit perfectly without any modifications.

The Herito brake pad set is perfect for all occasions and scenarios. Whether you are driving on the highway or on the racetrack, the Herito brake pad set will provide superior performance. If you are looking for the best brake pad brands, then Herito should be your top choice. The ceramic material ensures that the brake pads are durable and will last for a long time. You do not need to worry about replacing your brake pads anytime soon.

## Customization:

Customize your Lexus Brake Pad Set with our exclusive product customization services from Herito, the best brand of brake pads in the market.

Choose the thickness you want for your brake pads, available in 0.5 inches, to ensure the best brake pad performance for your Lexus. Our package includes 4 brake pads, with a weight of 5 pounds and dimensions of 8 x 8 x 2 inches, giving you the best value for your money.
