## Product Description

### Product Description:

Our product is made with high-quality materials that guarantee a long-lasting and reliable braking performance. With a friction coefficient of 0.35, these brake pads provide excellent stopping power for your Lexus vehicle. This coefficient is among the best brake pads brands available on the market, guaranteeing that you are getting the best type of brake pads for your car.

The package contains four brake pads, which is enough to replace both the front and rear brakes of your Lexus vehicle. These brake pads are designed to fit perfectly, ensuring that your brake system works as it should. The weight of the brake pad set is 5 pounds, which is lightweight and easy to handle during installation.

Installation instructions are included with the product to help you install the brake pads correctly, even if you are not a professional mechanic. You will not need to worry about the installation process, as the instructions are clear and easy to follow.

The dimensions of the Lexus Brake Pad Set are 8 x 8 x 2 inches, making it a perfect fit for your Lexus vehicle. With these dimensions, you are guaranteed that the brake pads will fit perfectly and provide the expected performance.

Upgrade your Lexus braking system today with the best ceramic brake pads on the market. Our Lexus Brake Pad Set is designed to provide superior braking performance, durability, and reduced noise and dust. With a friction coefficient of 0.35, these brake pads provide excellent stopping power for your vehicle.
