Product Description

Product Description:

Made with high-quality ceramic material, these brake pads are built to last. Ceramic brake pads are known for their durability and ability to handle high temperatures, making them an excellent choice for high-performance vehicles. With a thickness of 0.5 inches, these brake pads provide ample stopping power, allowing you to brake quickly and safely.

One of the standout features of this brake pad set is that it includes all the necessary hardware for installation. This means that you won't have to worry about purchasing additional parts or hardware to complete the installation process. Simply install the brake pads using the included hardware and enjoy the superior stopping power and performance that these brake pads provide.

When it comes to brake pads replacement, it's important to choose the best brake pads available. The Lexus Brake Pad Set is an excellent choice for anyone looking to upgrade their vehicle's braking system. With its high-quality ceramic material, superior stopping power, and included hardware, this brake pad set is a top-performing option for any vehicle.
