Installation Method:	Clip-in
Material:	Ceramic
Thickness:	14mm
Width:	155mm
Position:	Front
Quantity:	4 Pads
Warranty:	1 Year
Compatibility:	Porsche 911, Boxster, Cayman

### Applications:

One of the key features of Herito 201562 brake pad set is its installation method. The clip-in method makes it easy to install the brake pads without requiring any special tools or expertise. Therefore, you can install the brake pads on your own without having to spend extra money on professional installation.

Another feature that makes Herito 201562 brake pad set stand out is the wear sensor that is included in the product. The wear sensor helps to alert you when it's time to replace the brake pads. Therefore, you can avoid any potential safety risks by replacing the brake pads in a timely manner.

The height of the Herito 201562 brake pad set is 72mm, which makes it a perfect fit for Porsche models. Moreover, the product is made of high-quality ceramic material that is designed to withstand high temperatures and provide consistent braking performance. The ceramic material also helps to reduce dust and noise, making it a great choice for daily driving.

Lastly, the hardware is included in the Herito 201562 brake pad set, which makes it even more convenient for you to install the product.

You won't have to purchase any additional hardware separately, which saves you time and money.

Overall, the Herito 201562 brake pad set is an excellent choice for anyone who is looking for a reliable and high-quality brake pad set for their Porsche. The product is easy to install, comes with a wear sensor, and is made of high-quality ceramic material that provides consistent braking performance. Don't hesitate to invest in this product for a safer and smoother driving experience!

### Customization:

### Support and Services:

Porsche Brake Pad Set Technical Support:
