04466-12130 Ceramic Brake Pads**

Product Description

Product Description:

Manufactured by Toyota, these brake pads are OEM (Original Equipment Manufacturer) and OE (Original Equipment) certified, ensuring that they meet the highest quality standards and specifications set by Toyota. The OEM part number for these brake pads is 04466-12130, while the OE number is 04465-35290.

One of the key features of these brake pads is that they are made from high-quality ceramic materials. Ceramic brake pads are known for their superior performance, durability, and reliability when compared to other types of brake pads. They are also quieter and produce less dust, which means they are more environmentally friendly and easier to maintain.

The Toyota Brake Pad Set comes with 2 front brake pads and 2 rear brake pads, making it a complete set that is suitable for most Toyota vehicles. The dimensions of each brake pad are 5.5 x 5.5 x 3 inches, making them a perfect fit for your Toyota vehicle.

In addition to their superior performance and reliability, these brake pads also come with a 1-year warranty, giving you peace of mind and ensuring that you are covered in case of any defects or issues with the product.

Overall, if you are looking for high-quality ceramic brake pads for your Toyota vehicle, the Toyota Brake Pad Set is the perfect choice for you. These brake pads are OEM and OE certified, made from high-quality ceramic materials, and come with a 1-year warranty, making them a reliable and durable option that you can trust.

Applications:

The ZKZB Brake Pad Set is made of ceramic material, ensuring a longer lifespan and better performance compared to traditional brake pads. The ceramic brake pad is designed to withstand high temperatures, reduce noise, and dust, providing a smoother and quieter braking experience.

Whether you are driving in the city, on the highway, or through rough terrains, the ZKZB Brake Pad Set is suitable for all driving scenarios. The front brake pads are designed to withstand sudden stops and high speeds, providing you with the confidence to drive safely.

Meanwhile, the rear brake pad provides better control and stability during emergency stops, especially when carrying heavy loads or driving on steep slopes. The rear brake pad is also essential for vehicles with a front-wheel-drive system, as it helps distribute the braking force evenly between the front and rear wheels.

Overall, the ZKZB Brake Pad Set is a reliable and durable product that provides excellent performance and safety for your vehicle. It is suitable for various application occasions and scenarios, whether you are driving for personal or commercial purposes. Invest in the ZKZB Brake Pad Set today and experience the difference in braking quality and performance.

Customization:

Support and Services:

The Toyota Brake Pad Set is a high-quality product designed to deliver reliable and consistent braking performance.
