Product Description

Product Description:

With a thickness of 10mm, these VW front brake pads provide excellent stopping power and durability, making them the perfect choice for high-performance driving. The braking system of these brake pads is rated N, which means they are suitable for use in a variety of driving conditions, from daily commuting to spirited driving on the track.

The Fmsi code for these brake pads is D978, indicating that they are a high-quality product designed to meet the stringent standards set by the industry. These brake pads are made from high-quality materials, ensuring long-lasting performance and reliability.

Whether you're looking for improved stopping power or simply want to replace your worn brake pads, the Volkswagen Disc Brake Pad Set is the perfect choice. These brake pads are easy to install and come with everything you need to get the job done right.

In summary, the Volkswagen Disc Brake Pad Set is a high-quality performance brake pad set designed specifically for Volkswagen Santana2000 owners. These brake pads provide excellent stopping power, durability, and reliability, making them the perfect choice for high-performance driving. With a thickness of 10mm and a braking system rating of N, these brake pads are suitable for use in a variety of driving conditions. So if you're looking for the best VW front brake pads on the market, look no further than the Volkswagen Disc Brake Pad Set.

Features:

Product Name: Volkswagen Brake Pad Set

Type: Brake Pad

Braking System: N

Product Type: OEM Replacement

Applications:

The Volkswagen Performance Brake Pad Set is an upgrade from the standard OEM replacement. It is designed for drivers who demand better braking performance from their VW vehicles. The kit comes with four pieces, including a wear sensor, which is included in the set. The Herito brand is dedicated to providing brake pad sets that deliver superior stopping power and longer life span than the competition. The VW Brake Pad Kit is a must-have for Volkswagen owners who want to experience optimal braking performance. The brake pad set is designed to provide maximum stopping power, reduce brake dust and noise, and extend the life of the brake rotors. The Herito brand is committed to delivering high-quality brake pad sets that are easy to install and provide reliable performance.

The Volkswagen Genuine Brake Pad Set is a perfect fit for VW owners who want to maintain the original equipment on their vehicles. It is an exact replacement for the OEM brake pads and comes with a factory number of ZK-01014. The Herito brand is dedicated to providing brake pad sets that meet or exceed the highest quality standards set by VW.

The VW Brake Pad Kit is suitable for a variety of driving occasions and scenarios. It is perfect for daily commuting, weekend road trips, and high-performance driving. The Herito brand is committed to providing brake pad sets that are versatile and can handle any driving conditions. Whether you are driving on the highway or on the race track, the VW Brake Pad Kit is the perfect choice for your Volkswagen vehicle.
