- Dimensions: 5.5 X 5.5 X 3 Inches
- Highlight: **Toyota Corolla Ceramic Brake Pads,
Toyota Prius Ceramic Brake Pads,
High Temp Ceramic Brake Pads**

Product Description

Product Description:

The Toyota Brake Pad Set is made of ceramic material, which is known for its durability and ability to withstand high temperatures. This ensures that the brake pads will last longer and perform better than other materials. The ceramic material also reduces noise and dust, making it a cleaner and quieter option for your vehicle.

The braking system for this product is denoted as N, which means that it is a standard braking system. This makes it compatible with most Toyota vehicles, ensuring that you do not have to worry about compatibility issues.

The factory number for this product is ZK-11013, which is a unique identifier for this specific set of brake pads. This ensures that you are getting the exact product that you need, and that it will work perfectly with your vehicle.

The Toyota Brake Pad Set is easy to install, making it a great option for those who prefer to do their own vehicle maintenance. The package contents include 2 front brake pads and 2 rear brake pads, so you have everything you need to get the job done.

One of the standout features of this product is the rear brake pad. Many brake pad sets only come with front brake pads, but this product includes both front and rear brake pads. This ensures that your entire braking system is working in top condition, and that you do not have to worry about any issues with your rear brakes.

If you are looking for a high-quality, long-lasting, and compatible brake pad set for your Toyota vehicle, look no further than the Toyota Brake Pad Set. With its ceramic material, standard braking system, and unique factory number, you can be sure that you are getting a product that will perform at its best.

These brake pads with clips are designed for Toyota vehicles and are a reliable choice for safe and efficient braking.

Applications:

The ZKZB rear brake pad set is made of ceramic material, which is known for its durability, reliability, and performance. These brake pads offer superior stopping power and can withstand high temperatures, making them ideal for heavy-duty driving scenarios. The ceramic material also ensures that these brake pads are quiet and produce minimal dust, providing a clean and comfortable driving experience.

These brake pads are suitable for various product application occasions and scenarios. Whether you're driving on highways, city streets, or rugged terrains, the ZKZB rear brake pad set provides reliable and consistent braking performance. These brake pads have been tested and proven to work well in different weather conditions, including rain, snow, and extreme heat.

If you're looking for good brake pads for your Toyota vehicle, the ZKZB rear brake pad set is an excellent choice. These brake pads are easy to install and come with a one-year warranty, giving you peace of mind and confidence in your purchase. With a weight of 2.5 pounds, these brake pads are lightweight and won't add unnecessary weight to your vehicle, ensuring that your vehicle's performance is not compromised.

Customization:

These brake pads are specifically designed for the rear position of your Toyota vehicle. They are the perfect fit for your rear brake pad needs. Trust in ZKZB to provide you with the best quality brake pads for your Toyota.
