Product Description

Product Description:

With a weight of just 2.5 pounds and dimensions of 5.5 x 5.5 x 3 inches, these brake pads are lightweight and compact, making them easy to install and fit perfectly on your Toyota. The OE Number for this brake pad set is 04465-35290, which is a genuine Toyota part number, ensuring that you are getting a product that is specifically designed to fit your vehicle.

In addition to the OE Number, these brake pads also have an Interchange Part Number of 04465-35290, D1210, and ACT1210, which means they are compatible with a wide range of Toyota models. Whether you have a Camry, Corolla, or another Toyota model, these brake pads are sure to fit perfectly and provide excellent performance.

These brake pads are also backed by a Factory No of ZK-11013, which indicates that they are manufactured to the highest standards of quality and durability. You can trust that these brake pads will last for many miles and provide reliable stopping power in all driving conditions.

So if you're looking for high-quality brake pads for your Toyota, look no further than this Brake Pad Set. With their ceramic construction and OE Number compatibility, these brake pads are the perfect choice for any Toyota owner looking to upgrade their vehicle's braking system.

Applications:

The brake pads for Toyota by ZKZB come with OE number 04465-35290, making them an ideal replacement for factory-fitted brake pads. The product is designed to fit perfectly, ensuring minimum noise, low dust, and maximum stopping power.

The ZKZB brake pads for Toyota are perfect for various application occasions and scenarios. They are ideal for use in extreme driving conditions, such as racing and off-roading, where maximum brake performance is required. The brake pads are also suitable for daily driving, providing smooth and consistent stopping power in all weather conditions.

The ZKZB brake pads for Toyota are perfect for individuals who demand maximum safety and performance from their vehicles. These brake pads are an ideal choice for those who are looking for a reliable, durable, and affordable replacement for their factory-fitted brake pads.

The rear brake pad and front brake pad are specially designed to provide maximum performance and safety, ensuring that the driver can stop the vehicle in time to prevent any accidents. The ZKZB brake pads for Toyota are also suitable for use in heavy-duty vehicles, such as trucks and buses, where maximum stopping power is required.

In summary, if you are looking for reliable and durable brake pads for your Toyota, the ZKZB brake pads are an ideal choice. With their compatibility with various Toyota models, OE number 04465-35290, and position in both front and rear brake positions, these brake pads are perfect for all driving conditions.

Customization:

Support and Services:

Toyota Brake Pad Set is a high-quality product designed to provide reliable and consistent performance. Our brake pads are made with premium materials that meet or exceed OEM specifications to ensure maximum durability and safety. They are engineered to deliver excellent stopping power and reduce noise and dust.

We offer comprehensive technical support and services to ensure that our customers have access to expert advice and assistance. Our team of certified technicians is available to answer any questions and provide guidance on installation, maintenance, and troubleshooting. We also provide warranty coverage and replacement services for defective or damaged parts.

At Toyota, we are committed to providing our customers with the highest level of satisfaction and reliability. Our brake pad set is backed by our commitment to quality and customer service, so you can trust that you are getting a product that will perform to your expectations.

Packing and Shipping:

Product Packaging:

The Toyota Brake Pad Set is packaged in a sturdy cardboard box with the Toyota logo and product name clearly printed on the front. The box includes four brake pads, each individually wrapped in plastic to ensure they remain clean and free of dust and debris during shipping and storage. The interior of the box is lined with foam to prevent the brake pads from shifting or becoming damaged during transport.

Shipping:

The Toyota Brake Pad Set is shipped via standard ground shipping to ensure the product arrives in good condition. The product is carefully packed and sealed in a cardboard box to prevent any damage during transit. Once shipped, customers will receive a tracking number to monitor the delivery status of their order.
