## Product Description

### Product Description:

This brake pad set comes in a quantity of 4 pieces, making it perfect for replacing the brake pads on both the front and rear of your Toyota. These brake pads are specifically designed for Toyota vehicles, ensuring a perfect fit and optimal performance. Not only do these brake pads provide superior stopping power, but they also come with clips for easy installation. The clips ensure that the brake pads stay securely in place, providing a safer and more reliable driving experience. The Toyota Brake Pad Set is made from top-quality materials to ensure long-lasting durability and performance. In fact, these brake pads have an OEM part number of 04466-12130, indicating that they meet or exceed the standards set by Toyota for their original equipment manufacturer parts. Additionally, these brake pads have several interchange part numbers, including 04465-35290, D1210, and ACT1210. This means that they are compatible with a wide range of Toyota vehicles, so you can be confident that they will work perfectly with your particular make and model. Investing in high-quality brake pads like these is essential for keeping your Toyota safe and reliable on the road. Don't settle for inferior brake pads that may not provide the same level of performance and safety. Choose the Toyota Brake Pad Set for the best in braking power and reliability.
